

CANADIAN ASSOCIATION OF ALLIED HEALTH PROGRAMS
2018 Conference + AGM May 2-3, 2018
 (Table Go Round/College Catch Up!)

Topic	College	Contact Person	Brief description of initiative/ Strategies related to the topic
Tried And Tested Strategies For Supporting Student Success In Allied Health Programs	Camosun College	Lynelle Yutani yutaniL@camosun.ca	:: Early interaction with student supports - Centre for Accessible Learning - Indigenous supports :: Adaptable schedules
Best Practices For The Use Of Simulation In Allied Health Programs	Camosun College	Lynelle Yutani yutaniL@camosun.ca	:: Pre-brief & De-brief :: Co-learning with interprofessional teams :: SIM in everything, SIM <u>is</u> everything (lessons, labs, and skill testing) :: low risk (academic & patient)
OTHER: Interprofessional Collaboration	BCIT	Ann Syme annsyme1@bcit.ca	:: If we all used the CANMED Competency framework as basis for our frameworks, we would promote interprofessional collaboration.
New Program Ideas In Allied Health	Camosun College	Lynelle Yutani yutaniL@camosun.ca	:: Sonography :: Advanced Practice in Medical Radiology (Bachelor's) - International Degree (Valid in Multiple Countries) with direct access pathways for graduates to set for multiple certification exams & practice opportunities.
	BCIT	Ann Syme annsyme1@bcit.ca	:: Introducing a new curriculum that is concept-based, competency directedm based on the CANMED's educational framework. This new framework encourages a different approach to pedagogy that does not focus on ever increasing content, but rather teaching our students to learn life long. :: Active teaching strategies include small group learning, mixing theoretical content, experiential learning, IPE :: Very student-learner focused, and requiring enormous commitment by faculty
Innovative Strategies For Delivery Of Allied Health Program Theory-What's New?	Camosun College	Lynelle Yutani yutaniL@camosun.ca	:: Blended, Flexible delivery with on-line programming options :: Client services with student practice at the college :: Combined "core" classes for transferrable skills between all allied health professions

CANADIAN ASSOCIATION OF ALLIED HEALTH PROGRAMS
2018 Conference + AGM May 2-3, 2018
 (Table Go Round/College Catch Up!)

Topic	College	Contact Person	Brief description of initiative/ Strategies related to the topic
Clinical Practicums - The Challenge Of Delivery - New Ideas For Long Standing Issue	Camosun College	Lynelle Yutani yutaniL@camosun.ca	:: Increase of SIM to prepare students better for limited clinical time :: Change from "Clinical Instructors" to "preceptors" - those employees who, with appropriate training can guide new students along their path to competence (any professional currently in practice is qualified to judge if a student is meeting entry-to-practice).
	CSMLS - Med Lab Sci	Christine Nielsen christine@csmls.org	:: Simulation Knowledge Network - originally monthly teleconferences following Simulation Summit 2016 - meant to be information sharing
The Financial Sustainability Challenge - Strategies For Improving The Bottom Line And Ensuring The Delivery Of Health Programs Is Sustainable	BCIT	Patrick McClarty pmclarty@bcit.ca	:: Capital Equipment endowment funds :: Operating leases in lieu of capital acquisitions/funds. :: Using advanced statistics to develop budgets & forecasts. :: Utilizing data alytics RE: enrolments, website data
	Mohawk College	Wendy Lawson wendy.lawson@mohawkcollege.ca	:: Working to people's strengths - differentiated staffing :: Building a cohesive team of technicians, technologists, instructors, professors and curriculum design specialists.
Major Issues Impacting Allied Health Program Delivery	CSMLS - Med Lab Sci	Christine Nielsen christine@csmls.org	:: Using clinical partners to fullest extent i.e. increase net # of students through standard time slots (role of simulation) --> CSMLS has national grant application for SSHRC \$1.2M
	Mohawk College	Wendy Lawson wendy.lawson@mohawkcollege.ca	:: Sustainability of small specialized programs. :: Next steps to indigenization/decolorization(?) for curriculum/internationalization/inclusivity. :: Resourcing student accommodations in skills/clinical environments
Research In Applied Health Programs - Tell Us What You Are Up To	Camosun College	Lynelle Yutani yutaniL@camosun.ca	:: Reconciliation, Racism, Social Detriments of Health :: Applied Research
	Camosun College	Marcia Docherty dochertyM@camosun.ca	:: Ultrasound programs struggling with placements :: Please see research article: Pair Scanning: Integrating the student sonographer without impacting patient care - Ultrasound in Medicine May 2017 Wiley Online https://onlinelibrary.wiley.com/doi/abs/10.1002/jum.14229
